

SING YOUR PRAISES

Lord you're with me when the sun climbs
And the sky catches fire
With the glory of your light
You're with me when the night falls
And all of the stars sing your praises till the morn
And the angels keep singing
The chorus of the ages
The earth cries out; Lord let your kingdom come

*But all I can do is sing your praises, sing your praises
Shout it aloud let your glory fill this place
We want to lift your name higher than the mountains*

Lord you're with me when I'm weakest
And all of my faith disappears without a trace
You're with me when I fall
And all I can think is to hide my face in shame
But no matter what I do You carry me through
You're always at my side, footprints next to mine

*And all I can do is sing your praises, sing your praises
Shout it aloud let your glory fill this place
We want to lift your name higher than the mountains
Oh lord we want to sing your praises, sing your praises
Lift up our hands, Lord let your kingdom come
And let your glory reign in us*

All earth is crammed with heaven
Creation sings, glory to the king of kings
We will sing your praises, sing your praises Lord
And the broken-hearted from every tribe
Long to see your name be lifted high
We will sing your praises, now and forever more

*All I can do is sing your praises, sing your praises
Shout it aloud let your kingdom come
We'll sing your praises, sing your praises
Shout it aloud let your glory fall
We'll sing your praises, sing your praises
Lift up our hands, Lord let your kingdom come
And let your glory reign in us
Let your glory reign in us
Let your glory reign in us*
