

THE VOW

I vow to be a never ending lover to your soul
Stitch your heart to mine, I vow to be
The song to the rhythm of your life
Sing your soul to mine

Till death do us part, we say at the altar
To have and to hold, the ring goes on our hand
Long ago you were just a dream, but now you're reality
Seal my love with a kiss, this is my vow

I vow to be Yours in time of plenty and of need
I'll be your joy in sorrow, and I vow to care
To laugh and smile and dare to dream again
For this is a once in a life time love

*I give you my hand and my heart at the altar
From this day forth and as long as we both live
And as the sea runs with the tide
So I'm always at your side, Seal my love with a kiss
This is my vow*

*Till death do us part, we say at the altar
To have and to hold, the ring goes on our hand
Love gave us wings and we will fly
Through the story of our lives*

*I give you my hand and my heart at the altar
From this day forth, and as long as the sun will shine
And in the eyes of God above
We are bound forever in love
Seal my love with a kiss, seal my love with a kiss
This is my vow*
